The Paris Carbon Fibre Spring Plate – now available in Australia from Footwork!

Footwork has partnered with Paris Orthotics (Canada) to deliver the Paris Carbon Fibre Spring Plate direct to Australian podiatrists!

We are proud to be offering another exceptional product to the Australian market. The spring plate is a simple and effective solution for limiting motion across the forefoot and aiding in propulsion.

Features

- Extremely thin, light and durable made from premium quality pre-preg carbon
- Pre-shaped left or right and available in 4 sizes
- Contoured design to provide ideal toe spring and heel elevation for most athletic, walking and orthopaedic footwear designs
- Excellent interface with custom foot orthotics (if adequate shoe toe depth)
- A practical alternative to some common shoe modifications

George Murley launching the Spring Plate at Footwork and talking about the clinical application.

Clinical Indications

- Post-surgical care option when transitioning from post-op shoe to regular footwear after bunion, hammertoe and other forefoot surgeries
- Management solution for turf toe, forefoot stress fractures, sesamoiditis and Lisfranc injuries
- Protection and toe-off assistance for pathologies affecting the midfoot and forefoot including rheumatoid arthritis, hallux rigidus or limitus, Freiberg's disease, diabetes and forefoot amputations

Benefits

- Quick shoe fit
- Easily transferred from shoe to shoe
- Light and thin

Considerations

- Maximum body weight tolerance is 127 kgs
- Important to use in shoes with adequate forefoot rocker profile
